

Rochester Christmas Bird Count Registration

Instructions

1. Keep track of your mileage and hours and record the information below.
2. Count all birds in your section, including Canada geese and crows.
3. Take a photograph of species marked with (*) if possible. The state CBC coordinator prefers a photograph of rare species and no longer accepts the MOU Request for Documentation form.
4. A mid-day tally will be held at Quarry Hill Nature Center from noon to 1 p.m. Bring your own lunch.
5. An end-of-day tally will be held at the Nature Center starting around 4:45 p.m. All participants are invited to attend. The tally will include a light potluck supper with soup and bread provided.
6. If you won't be attending the end-of-day tally, please drop your **registration form and tally form** off at the Nature Center by the end of the day, or e-mail them to **Clifford Hansen** at clhroch@yahoo.com. A legible photo of a form is fine.
7. Each team should decide what Covid precautions to follow. National Audubon recommends wearing masks indoors and carpooling only for members of the same household or social "pod".

Party Hours & Miles

Hours

total nocturnal party hours

total party hours by car

total party hours on foot

Miles

total nocturnal party miles

total party miles by car

total party miles on foot

A party is a group of observers who are traveling together.

Party hours & miles are determined regardless of the number of observers in the party.

Example:

one party from 7:30am to 12:00pm = 4.5 party hours

one party from 7:30am to 1:30pm = 6.0 party hours

one party from 1:00pm to 4:30pm = 3.5 party hours

Total = 14.0 total party hours

Please enter participant names below:
