

Celebrating Bill Bruins Lifetime Achievements - May 24, 2016

Friends gathered at Quarry Hill Nature Center on May 24, 2016 to celebrate and acknowledge Bill Bruins' many contributions to our local environmental organizations.

Bill has freely shared his talents, muscle, and and voice toward making our world a better place - when a problem needed a solution - Bill always stepped up and calmly figured out a way to "get it done".

Joel Dunnette, Tom Ryan and many others shared memories, reminisced, and thanked Bill for his help, encouragement, and mentorship through the years.

We all wish Bill and Ann the best as they move closer to family in Wisconsin ... and look forward to some long distance birding reports, too!
