Rochester Christmas Bird Count Registration

Instructions

1. Keep track of your mileage and hours and record the information below.
2. Count all birds in your section, including Canada geese and crows.
3. Take a photograph of species marked with (*) if possible. The state CBC coordinator prefers a photograph of rare species and no longer accepts the MOU Request for Documentation form.
4. We will not be meeting at Quarry Hill Nature Center for a mid-day tally this year.
5. All participants are invited to attend an end-of-day tally at Quarry Hill Nature Center beginning around 4:45 p.m. Masks are required in the nature center, and we will not be having a shared meal this year.
6. If you won't be attending the end-of-day tally, please drop your registration form and tally form at the nature center by the end of the day, or e-mail them to Clifford Hansen at clhroch@yahoo.com. A legible photo of a form is fine.
7. Because of the pandemic we ask that participants not share a car, except for members of the same household.

Party Hours & Miles

</table>

A party is a group of observers who are traveling together.

Party hours & miles are determined regardless of the number of observers in the party.

**Example:**

- one party from 7:30am to 12:00pm = 4.5 party hours
- one party from 7:30am to 1:30pm = 6.0 party hours
- one party from 1:00pm to 4:30pm = 3.5 party hours

**Total = 14.0 total party hours**

Please enter participant names below:
